Monthly Status Report – December 2017

Board Meeting Summary

There was no meeting this month.

Legacy Management Monthly Site Activities Summary

DOE reports the following for November.

Groundwater Treatment Systems

- East Trenches Plume Treatment System (ETPTS): DOE reports the system is working as designed, effectively treating groundwater contaminated with volatile organic compounds from both the Mound Site and East Trenches groundwater plumes.
- Solar Ponds Plume Treatment System (SPPTS): DOE reports the system is working as designed, treating groundwater plumes contaminated with uranium and nitrates from the former Solar Evaporation Ponds. Additionally, site personnel began testing additional media types to support uranium treatment.

Original Landfill

- Completed routine biennial berm and channel maintenance.

North Walnut Creek Slump

- The geotechnical investigation and engineering analysis is ongoing. The geotechnical drilling project began on November 15. Information from these boreholes will be used to develop recommendations for a future project to stabilize the hillside.

Site Maintenance

- Completed annual routine road maintenance and dust suppressant application.

Stewardship Council Update

Next Board of Directors Meeting: Monday February 5, 2018
